# Background Information and Data accompanying Supplementary Environmental Statement 2 and Additional Provision 2 Environmental Statement

Air quality  
BID AQ-002-OMA03 SES2 and AP2 ES  
MA03

Additional data used in the air quality assessment

## 1 Introduction

### 1.1 Structure of this report

- 1.1.1 This document sets out Background Information and Data (BID) that accompanies the High Speed Two (HS2) High Speed Rail (Crewe – Manchester) Supplementary Environmental Statement 2 (SES2) and Additional Provision 2 Environmental Statement (AP2 ES)<sup>1</sup> for the Pickmere to Agden and Hulseheath (MA03) community area.
- 1.1.2 This document contains the traffic data that was used in the air quality assessment set out in the SES2 and AP2 ES.
- 1.1.3 This document details supplementary air quality baseline data not reported in the BID document<sup>2</sup> that accompanied the High Speed Two (HS2) High Speed Rail (Crewe – Manchester) Environmental Statement (the main ES) or the Supplementary Environmental Statement 1 (SES1) and Additional Provision 1 Environmental Statement (AP1)<sup>3</sup> both published in 2022<sup>4</sup>.
- 1.1.4 In order to differentiate between the original scheme and the subsequent changes, the following terms are used:
- ‘the original scheme’ – the Bill scheme submitted to Parliament in 2022, which was assessed in the main ES;
  - ‘the SES1 scheme’ – the original scheme with any changes described in SES1 that are within the existing powers of the Bill;
  - ‘the AP1 revised scheme’ – the original scheme as amended by SES1 changes and AP1 amendments;
  - ‘the SES2 scheme’ – the original scheme with any changes described in SES1 (submitted in July 2022) and the SES2; and

Available online at: <https://www.gov.uk/government/collections/hs2-phase2b-crewe-manchester-environmental-statement>.

## **3 Construction traffic data**

- 3.1.1 Table 1 and Table 2 present the traffic flows used in the air quality assessment from construction related vehicles on the highway network (annual average daily traffic (AADT) and heavy duty vehicles (HDV)), on the site haul routes and at areas of construction activities along the route. Vehicles along the haul routes are split into 20 tonne heavy goods vehicles (HGV) used in the construction of the rail systems and 40 tonne articulated dump trucks (ADT), which travel along the route.

## **4 Operational traffic data**

- 4.1.1 Table 3 outlines the predicted flows on the highway network relating to the operation of the AP2 revised scheme in 2039. The data presented are split into AADT and HDV in the 'without the AP2 revised scheme' and 'with the AP2 revised scheme' scenarios, together with the change between the two scenarios. It also notes whether the road will be closed, diverted or realigned permanently, due to the operation of the AP2 revised scheme.
